PROJECTS

Infinity Gem

S https://ig.bluehouseng.com/

Infinity Gem is a tech teaching website designed to provide educational resources and tutorials for aspiring developers and tech enthusiasts.
Contribution: I played a key role in developing the website to create a seamless user experience.
My responsibilities included implementing interactive features, ensuring responsive design, and optimizing the site for performance.

Marb Store

🔗 http://www.marbstores.com/

Marb Store is an e-commerce website focused on selling bags and shoes. The project is currently a work in progress, aimed at providing a user-friendly platform for online shopping.
Contribution: I have been instrumental in developing the website, focusing on the frontend. My tasks include designing and implementing the user interface, ensuring responsive design for various devices, and setting up the initial product catalog.
I am also working on integrating secure payment gateways and optimizing the website for performance and scalability.

VOLUNTEERING

Mentor

BlueHouse Technology

📅 2024 - Present

- Mentored more than 20 aspiring junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on maintaining motivation to maintain longevity in the program.

Volunteer Coding Teacher

Children Training

📅 2023 - 2024

- Mentored young students in coding languages and principles.
- Train young school children in basic use of computer

SKILLS & TECHNOLOGY

HTML	CSS	Javascript	Typescript
REST	Software Testing Principles		
Github	Git lab	React.Js	Next.Js
Vs Code	IntelliJ	Figma	
Google Analytics	Google Search Console		
Vercel			

EDUCATION

Diploma in Computer Science

Federal cooperative college

📅 2021 - 2024   📍 Enugu state, Nigeria

CERTIFICATION

Advanced Javascript

Introduction to Software Testing
